

Finish Carpenter

About: ADK is a commercial general contractor with in-house custom millwork expertise. Known for delivering complex and unique projects, we have a reputation for building high-quality commercial projects since we organized in 2003. Our portfolio of work includes retail, hospitality, office, historic re-use and high-end residential. Our priority is to focus on building long standing relationships with visionary clients in an ever-changing construction marketplace. Our success stories are built around providing value and quality details without compromising the vision of our clients and architectural partners. ADK's mission, first and foremost, is to deliver quality construction solutions for our client's needs. Understanding our client's interests allows us to align project construction goals, long before the first piece of construction equipment arrives on the jobsite. This goes beyond cost, schedule and quality; it's about relationships, innovation and efficiency. We work with our clients to understand their expectations, to reveal other pressures, overcome challenges and address concerns that face them in the process of building their project.

Essential Duties & Responsibilities:
